ROADS DEPARTMENT OF GEORGIA

**Roads Department of Georgia
implements routine repair, periodic
maintenance, rehabilitation,
reconstruction, modernization and
construction of 1520 km of International
and 5371,1 km of Secondary Roads.**

East-west direction: Red Bridge - Sarpi 2019-2023.

It is ongoing and planned to construct 227 km of the highway in the value of 5.1 billion GEL.

113 km. of highway is under construction, the cost is 1,35 billion GEL. Expected Completion Period: 2019-2021

Mobilization and preparatory works are underway on 25 km of road, cost – 1,6 billion GEL, Expected Completion date: 2021.

- Zemo Osiauri-Chumateleti
- Samtredia-Grigoleti
- Batumi Bypass road
- Grigoleti-Choloki
- Kutaisi bypass road (Lot II)

- Rikoti: Khevi-Ubisa
- Rikoti: Ubisa-Shorapani

East-West direction: Red bridge - Sarpi 2019-2023

Bidding procedures are in progress for 11,6 km of highway, expected completion period: 2022.

- Rikoti: Chumateleti-Khevi

Construction of 57,7 km. of highway is planned, cost- 1,5 Billion GEL, expected completion date: 2023.

- Rikoti: Shorapani-Argveta
- Batumi-Sarpi
- Rustavi-Red bridge

North-South direction: Larsi- Sadakhlo 2019-2023

100 km. of highway. Value - 1,9 Billion Lari

Construction of 77,3 km of highway is planned. Value - 700 MM GEL

Bidding Procedures are progressing for 22,7 km of highway. Value - 1.2 Billion Lari

- Algeti- Sadakhlo
- Natakhtari- Zhinvali
- Pasanauri Bypass Road
- Arsha- Stepantsminda Bypass Road
- Stepantsminda- Gveleti

- Kvesheti- Kobi

Highway Construction

East-West direction: Red Bridge/Sadakhlo- Sarpi
Period 2019-2023, Approximate cost 5.1 Bill Lari

- 190km of road was constructed before 2018
- Construction of 77 km of road is currently underway, which will be completed gradually by 2020-2023
- All modern standards and international norms of road safety are taken into consideration
- The distance will be reduced by 30 km
- Driving speed will be increased by 80% - 100%
- Travel time will be reduced by 50%

If today, covering the distance between Red Bridge to Sarpi takes 8 hours, in future it will be reduced by half.

Highway

North-South direction - Larsi – Red Bridge –Sadakhlo – Period - 2019-2023, estimated cost 2.3 MM GEL

Kvesheti - Kobi

- Nowadays average closure of Gudauri – Kobi section is 98 Days
- After Project implementation, there will be no traffic restrictions - 9-km tunnel will address all pending issues.
- Tunnel width is 15 metres – which is rather rare not only in Transcaucasia but worldwide. This Tunnel will be included in the list of the most largest Tunnels of the world.
- 500m. arch bridge will be constructed, which arch will be unprecedented with 300 m length.

**Travel time instead of 60 minutes
will be 15 minutes.**

64 MM GEL is allocated for Mountain Road Program in 2019.

Mountain Road

Zemo Imereti – Racha connecting road

- 51.3 km long 2-lane road will be constructed
- Traffic will significantly increase the quality and safety levels of the road
- **Travel time between Tbilisi and Oni will be reduced by 1.5 hour**

Baghdati - Abastumani Road

- Construction-modernization of two-lane 6,8 km-long road section
- Operation life of the road will be 12 months, while the road was closed and traffic was restricted during 6 months
- Travel time from the central part of Georgia to Turkey will be essentially reduced
- **Travel time from Kutaisi International Airport to Abastumani will be reduced by 1,5 hour.**

Sno – Juta – Roshka – Shatili – Omalo –Batsara – Akhmeta Road

- Construction-rehabilitation works will be carried out on about 239,4 km of road
- Mtskheta-Mtianeti – Pshav-Khevsureti – Dusheti region and Akhmeta region will be connected with each other.
- **Now travel time from Stepantsminda to Omalo is 12 hours, but after completion it will be 5 hours.**

Lentekhi – Mestia connecting Road

- Length of the road is 47.4 km
- **From Kutaisi International Airport to Ushguli travel time will be reduced by 2 hours.**
