GEORGIAN ASSOCIATION OF CONSULTING ENGINEERS

ACEG at a Glance

- Established on 29 March 2017 in Georgia as a non-profit (non-commercial) legal entity
- Solid support from FIDIC, International Federation of Consulting Engineers
- Unites local and international consulting engineering companies and individuals operating on Georgian market
- FIDIC Member Association since October 2017

ACEG Vision

A strong, advanced, and trusted consulting engineering sector for delivery of a better quality of life

ACEG Mission

- To promote best consulting engineering standards in the country
- To provide professionals with the opportunity to share their knowledge and experience
- To provide opportunities for advancement of knowledge
- To promote and develop the industry based on internationally recognised principles
- To engage with stakeholders and raise the profile of consulting engineering sector among clients, government authorities and other industry participants

ACEG Strategies

- Build national and international partnerships with industry stakeholders
- Partner with other associations, international and local organisations sharing ACEG objectives
- Print, publish and release printed or electronic books, periodicals, newsletters
- Facilitate discussions within members and industry participants
